

QUESTION:

What do you think of the disk loads
in Habitat? Please press F7 to
respond, then type one of the
responses below.

I didn't particularly notice the
disk loads.

I wish they would take less time,
less often, but still enjoy playing
Habitat

I think that the frequency and
length of disk loads would prevent
me from playing very often

- - - - -
Mail to: habitatq9
Mail From: Celebrindl
I didn't particularly notice the disk
loads.

#2: I wish they would take less time,
but it won't stop me from playing.
:
Opinion: I think they WILL inhibit the
paying subscriber, though.

Mail From: OSGOOD
I wish they would take less time.

Mail to: habitatq9
Mail From: GRANNY1
Frequency of loads prevent me from
playing often.

Mail to: habitatq9
Mail From: Eric

.
Being a programmer, I can understand
the disk load time. I think it is
VERY well done.

.
From a general member standpoint,
however, they will probably complain
of the load times.

.
I feel this could be effectively
explained in the manual in a positive
way which could change their feelings
about it.

Mail to: habitatq9
Mail From: Chameleon
I wish they would take less time, less
often, but I still enjoy playing

Mail to: habitatq9
Mail From: Chameleon
playing Habitat.
One stupid thing I've done several
times (and given the propensity of
some members.....) When first loading,
you have to flip the Habitat disk. When
leaving, you are instructed to insert
the Q-Link disk. Several times I've
absent-mindedly (being the oldest tester
I should be able to get away with that)
flipped the Habitat disk again instead
and found myself in Habilimbo.

Mail to: habitatq9
Mail From: QWOP
I think the frequency and length of the
disk loads would prevent me from playing

very often.

Mail to: habitatq9

Mail From: WoodDrahn

I think the disk loads maybe COULD be
a little shorter but it's not a big deal
to me. (Sorry for the odd format ;)

Mail to: habitatq9

Mail From: Dragonfish

The frequency and length of disk loads
would (as *has*) prevented me from
playing often...

Mail to: habitatq9

Mail From: RAOULTFOOL

One of those answers????

.
How about the middle one. The disk
loads are not that bad.

Mail to: habitatq9

Mail From: Lady Beau

I wish the disk loads would take less
time but it does not bother me!

Mail to: habitatq9

-
irratating.... :\

-
don't really mind it. Won't keep me
out

- - - - -
Mail to: habitatq9
Mail From: Ogl

.
The disk loads might prevent me from
using it as often. Every simple move =
a disk load. And most peoples Drives
aren't that relyable...

- - - - -
Mail to: habitatq9
Mail From: WOWW
I think it is to slow.. exspecially on
a 300

- - - - -
Mail to: habitatq9
Mail From: SandraS
The diskloads could be shorten more
but I still enjoyed it.

- - - - -

I wish they would take less time,
less often, but still enjoy playing
Habitat.

- - - - -
Mail to: habitatq9

Mail From: IggY Void

.
I dont think the disk loads are
too bad... the could be shorter
but they are much better than the
standard commodore disk loads...

.
perhaps you should check into the
1764 1700 1750 ram expanders so that
users with these expanders could use
them as Ram disks for super fast
disk access

.

Mail to: habitatq9
Mail From: DeanD
I wish they would take less time, less
often...

.
NOTE: I have long times between disk
loads but then, I'm at 300 baud and
using 1541 and 64.

.

Mail to: habitatq9
Mail From: Sky Dragon
I think the frequency and length of
disk loads would prevent me from
playing very often.

.
sorry, but I think the disk loads
are prohibitively slow. unfortunately,
there may not be much that can be done
about it. it detracts greatly from the
playability of Habitat.

.

Mail to: habitatq9
Mail From: THE WALL
I wish they would take less time, less
often, but still enjoy playing Habitat.

.

Mail to: habitatq9
Mail From: Fleximan
I did not particularly notice the
disk loads after first logging into
HABITAT!

.
